SUMMARY

Law graduate student at National Chengchi University researching AI and corporate governance, with a semester at the University of Maryland Carey School of Law. Founder of Law God, an AI-assisted study platform for Taiwan's bar and judicial exam candidates, where I lead legal content quality control: setting review standards for questions and explanations, and verifying statutory and judicial citations. Native Traditional Chinese; TOEFL iBT 100.

EXPERIENCE

Law God (法老科技有限公司) — Founder & Legal Content Lead 2025 – Present

- Designed and supervised an AI-assisted quality assurance workflow across a 1,500-question Taiwanese bar-exam multiple-choice bank, reviewing and signing off on 385 revised explanations with 0 critical issues remaining.
- Set the drafting and review standard for questions and distractors: an item goes back for revision when the facts are incomplete, the options overlap, the wording is unclear, or the answer is not fully supported by law.
- Built a citation check: 7,595 statute citations screened by script and 290 court-decision citations traced to the official judgment database and other published sources. It caught and corrected 2 wrong case numbers.
- Designed the platform to flag unsupported citations instead of presenting them as settled law.
